WORK TO COMMENCE.

Work on the Calgary & Edmonton Railway will commence on Wednesday, July 2nd.

DUCK LAKE.

Mr. H. Mitchell is on a visit to Saskatoon.

Our citizens, now that the rails will in all probability be laid this far, should arrange with the railway company to have an excursion here on the 1st of July and give Prince Albert and other points an invitation to join us. There is only one month more to prepare and no time should be lost in showing outsiders what we can do.

Dr. Stewart has just got in a new top buggy; it's a dandy, and all the doctor now wants is a wife. He also got in by last express a very handsome new bicycle.

Regular passenger traffic was established on the railway this week. Trains will leave Saskatoon every other day.

Mr. Ed. Woodcock's many friends will be pleased to know he is coming back to run on the new route between Saskatoon and Prince Albert.

H. Kelly of Kinross has been appointed assessor for the Duck Lake Protestant School District and is now making the first assessment.

## THEY ARE WORKING.

It is gratifying to know that among our citizens many can be found, ready and willing, to spend much valuable time in the interest of our district. The joint committee of the Town Council and Agricultural Society are holding regular meetings and if successful in their plans, much good is bound to result. In Messrs. Miller and Campbell they have secured for emigration agents two of the best men possible for the work. Mr. Miller from his long connection with the country, together with his practical experience both in Manitoba and the Territories, will be able to give much valuable information regarding the advantages this district offers for settlement, and Mr. Campbell has only to show a list of the many people he has already located here, together with an account of their present condition, in order to prove the merits of the district he goes out to represent. Without in any way wishing to interfere with the work of the committee, we desire to suggest the importance of their securing as full a list as possible of all parties who having taken advantage of the second homestead law, now hold the original one for sale, the lowest price at which they can be bought, their localities and terms of payment. Information of this kind will prove valuable to persons desirous of getting an improved farm in preference to free grant lands. We never were supporters of the second homestead provisions, and circumstances are daily occurring to prove its great injury to settlement.

The committee are entitled to the thanks of every settler for their efforts thus far, and all possible assistance should be given them by the public. They have started out in the right direction, and everything seems to suggest a successful issue.

## WEST END SCHOOL.

Last fall the ratepayers decided that a more commodious school house, for the West End, was important, and by vote empowered the Board to raise by debenture \$1,500 for that purpose. But as the season was pretty far advanced, operations were delayed, but assurance was given that work would be started early this spring. June is now here, but it appears that as yet, not even a start has been made towards negotiating the loan. If the building was necessary last September it is quite as important now, and the public should be made aware of the intentions of the trustees. If rumor tells the truth, promises in this connection were made by certain members of the Board which went far towards securing their election. Come, gentlemen, don't allow any selfish motives to stand between you and your duty to the children of the West End.

The reported reappearance of influenza at Warsaw in an acute form suggests the possibility that the epidemic will again sweep over its old course and this continent be subjected before the close of summer to a repetition in kind of the visitation from which it suffered last winter, and which it still feels in the impaired health and occasional deaths of persons who had been prostrated from the grippe. The epidemic of this disease which over-spread this continent a hundred years ago was twice repeated within eighteen months, though it may be assumed that neither of the returns of the disease affected nearly as large a number of persons as the first outbreak.

There is probably no spot in Canada where the election contest is so hot as in Hamilton if we are to judge from the utterances of the papers there. It will probably take all the waters in Burlington Bay to cool the contestants if they keep at their present white heat.

The Brockville Recorder now places the surplus of Ontario at "upwards of seven millions." If the campaign could be prolonged for a few months, no doubt that surplus could be raised so high that we could all quit work for the rest of our lives.

Keeley has at length been induced to give up the secret of his motor. He says he "utilizes the subtle polar current of the earth." This seems to be a fairly reasonable explanation, but the machine continues not to go just as regular.

The British-American Association of Chicago has declared as one of its principles "an abiding faith in the common school system, unfettered by any denominational or religious restrictions."

From a casual glance at our exchanges, we should judge there is an election contest on in Ontario at present.

## SPECIAL EXAMINATION.

A., to the successful competitors in the above subjects. ## QUEEN'S BIRTHDAY.

An Unusually Quiet Holiday.

Her Majesty's birthday this year passed off as far as the citizens of this town were concerned with less demonstration than ever before. Quietude reigned supreme in town during the morning. The clerk of the weather was evidently displeased at Prince Albert citizens and furnished very depressing weather for the occasion. Possibly about 100 people from the country availed themselves of the opportunity given of taking in the sights of the town.

The day opened cool and cloudy and the rain, which threatened in the morning, descended in torrents during the afternoon.

## RIFLE PRACTICE.

The day's sports were inaugurated in the morning by a few of the members of the S. P. R. A., who spent the forenoon at rifle practice on their range opposite the town across the river. Some very good scores were made, and in this connection it may be said that the club confidently hope to raise their already very superior score.

## CRICKET MATCH.

In the afternoon a cricket match took place between teams from the P. A. C. club and the N. W. M. P. club, resulting in a decided victory for the Police team. The game commenced shortly after one o'clock and was witnessed by a large crowd of admiring friends for both teams. The home club won the toss and went to bat, but went down very rapidly before the bowling of the visitors, who had one of the strongest teams that could be selected from the police station here. The score for the first innings closed with forty-two runs for the P. A. C. C., and ninety-five for the N. W. M. P. C. The rain which commenced during the P. A. C. innings and severely interfered with the play, held off during the police innings, but as soon as the home team went to bat in the second innings it started again, and to that is ascribed to a large extent the ill success of the town players. The game not being played out, was decided in favor of the Police team. The band of F Division was on the grounds during the afternoon, adding very much to the enjoyment of the day. Following is the score:—

## THREE HOURS GO-AS-YOU-PLEASE.

The lessees of the curling rink had arranged for a grand go-as-you-please in the evening, and the track had been put in good shape with sawdust, &c., but the rain which fell during the day, came through the roof on to the track, making it very heavy. The race started however about half-past seven with six entries and was very interesting to the crowd of spectators and doubtless more so for the contestants. A very good record was made, as the score below will show; the number of laps to the mile was fifteen. There was little or no betting done and good order prevailed during the race,

generally, and the whole affair passed off very quietly with profit to the inaugurators and those who won the prize. The first prize of \$15 went to Bear, with a score of 24 miles and 6 laps; 2nd \$8, J. Offord, 22 miles and 6 laps; 3rd \$5, J. Mair, 21 miles 10 laps; 4th McKenzie, 20 miles 12 laps; 5th, Porter, 19 miles 11 laps; 6th, Cameron, 18 miles 4 laps.

Here, again, the Police band were on hand, cheering the weary pedestrians on their way and otherwise enlivening the evening's proceedings.

## Coughs, Colds, Croup.

Allen's Lung Balm was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balm will prevent it if only taken in time. For Croup, whooping, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs, ALLEN'S LUNG BALM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and \$1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balm, call for a 25-cent bottle to test it.

Quite a large number of people from that district witnessed the game. After the ball game was over a number of running and jumping contests were got up and the boys enjoyed themselves all afternoon. Y. Davis, a shotgun, watch and other articles all of which are now at the barracks awaiting identification. The nitchee was to have been tried yesterday afternoon, but he attempted to commit suicide by stabbing himself with an old case knife, and "weakened" before he finished the job, only cutting the skin.
